

## **Department of Continuing Education**

Head of Department: Dr. Elisabeth VYKOUKAL

The department strives to provide high-quality further education programmes to mental health professionals as well as to enhance the general public's knowledge of mental health-related issues.

Mental health professionals may choose from a variety of continuing education seminars officially recognized as further education by the Austrian Psychotherapy Law. The programmes comprise a wide range of psychotherapy schools, latest research results from psychotherapy science and the continuing development of professional expertise.

Furthermore, the department offers lectures and seminars to the general public to foster conflict resolution and social skills as well as psychological wellbeing.
