

How to install IBM SPSS27 on Mac OS

Start the installation with a *double click on the file*. (Fig. 1)

Figure 1

The installation wizard will start.
Click *Next* (Fig. 2)

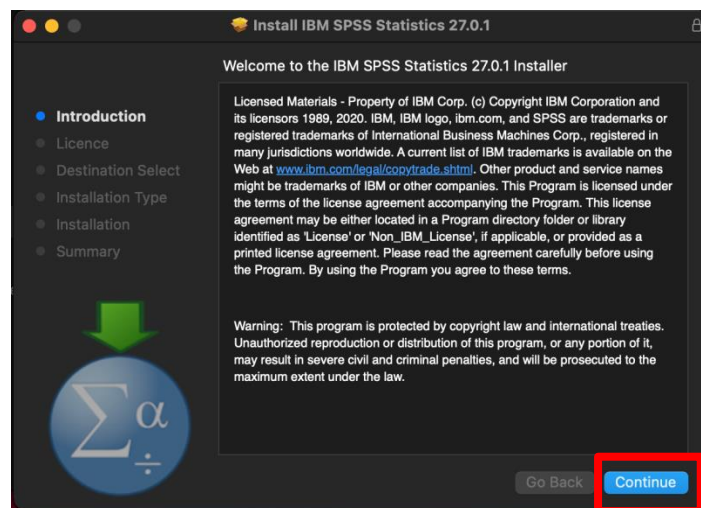

Figure 2

Read the license agreement and
click *Next*. (Fig. 3)

Figure 3

Accept the license agreement by clicking **Agree**. (Fig. 4)

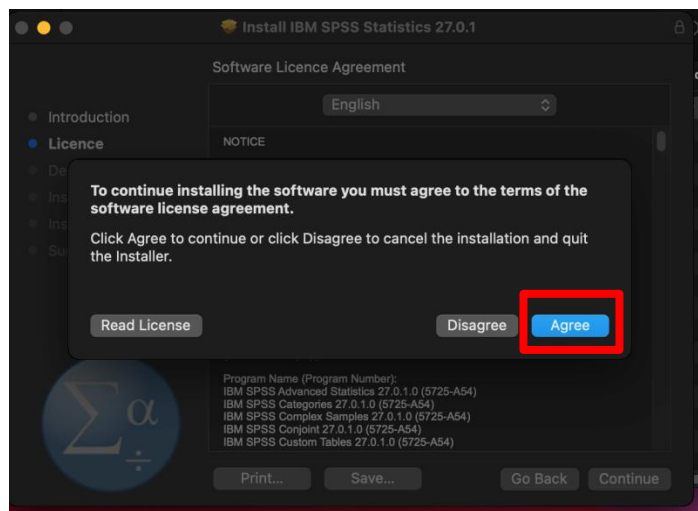

Figure 4

To start the installation, click **Install**. (Fig. 5)

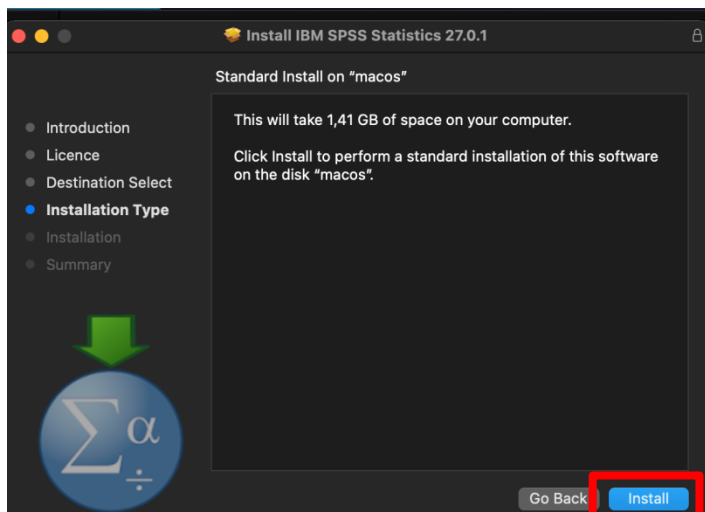

Figure 5

#

You will be prompted to enter a username and password. Use the same information you use to log in to your Mac and click **Install Software**. (Fig. 6)

(If you do not know this information, or if you are not an administrator on your Mac, please contact your system administrator).

Figure 6

The installation will now be executed, this may take a few minutes. (Fig. 7)

Figure 7

You will see that the installation was successful, click *Close*. (Fig. 8)

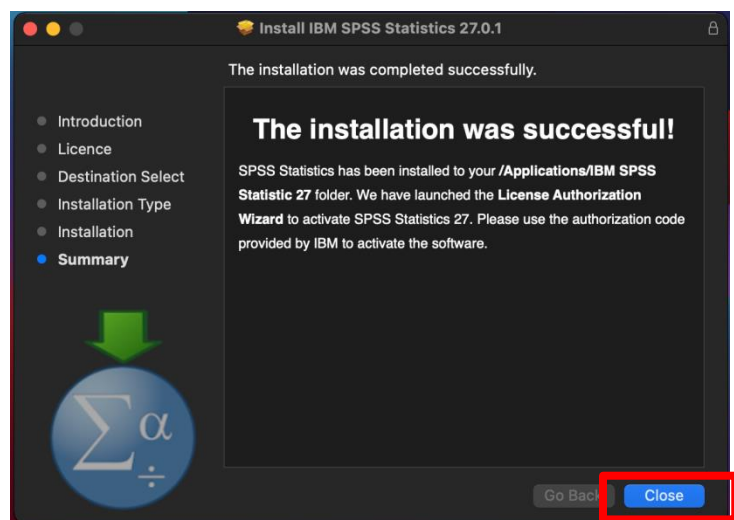

Figure 8

After the installation you will be asked if you want to keep the installation package. You can now delete it. To do so, click on *Move to Bin*. (Fig. 9)

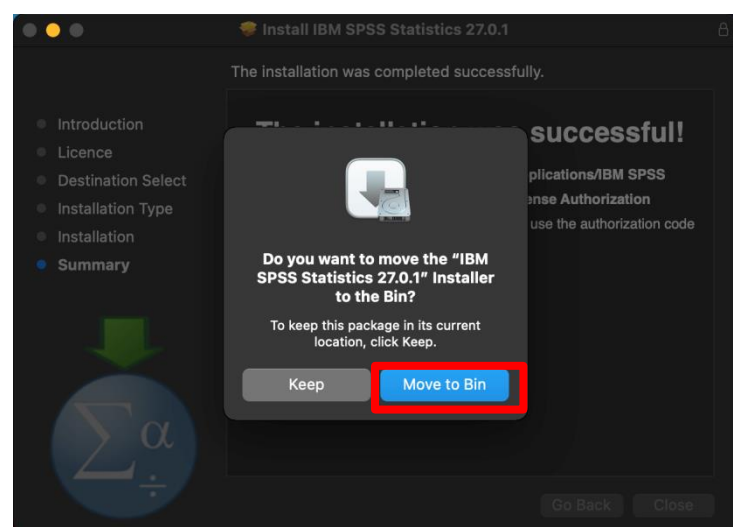

Figure 9

The license wizard will now open automatically. If this is not the case, use the search function to look for license authorization wizard and open it.

Click **Next** in the first window. (Fig. 10)

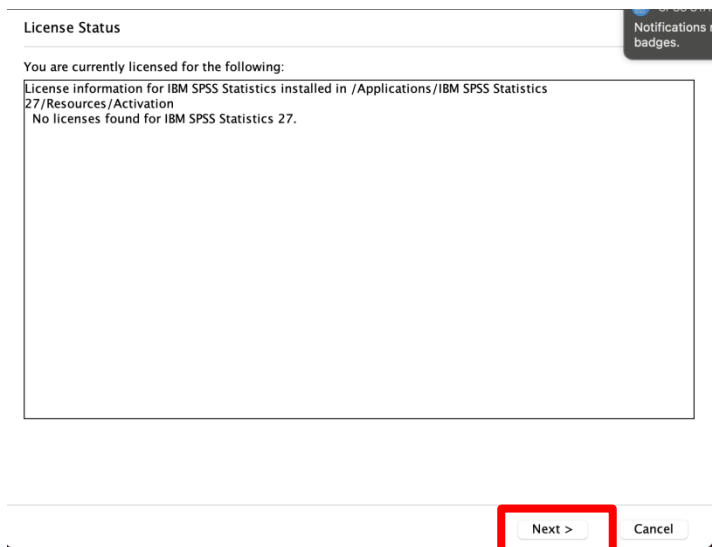

Figure 10

You will now see your current license status. Click on **Next**. (Fig. 11)

If you have licensed SPSS before, you can see here how long your license is still valid or if it has already expired.

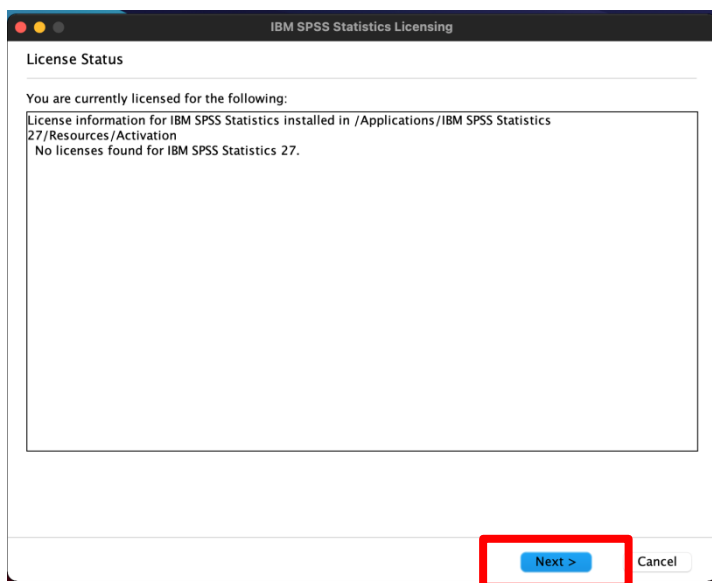

Figure 11

Select the License for
authorized user license and
 click *Next*. (Fig. 12)

Attention: For a successful
 licensing you need a working
 internet connection!

IBM SPSS Statistics Licensing

Product Authorization

Select one of the following:

- ☒ Authorized user license (I purchased a single copy of the product).
 You will be asked to enter the authorization code(s) or license code(s) that you received from IBM.
[Example Codes](#)
- ☐ Concurrent user license (My organization purchased the product and my administrator gave me a computer name or IP address).

Lock Code for this machine

[What is a Lock Code?](#)

< Back **Next >** Cancel
